BETH Vegetation Observation Form

Name (Obs#1):	Name (Obs#2):
Transect #:	
Rotate 360 degrees at each point and look out 25 meters/80 feet out from each point before starting your survey. Count all plants under 1.5 meters/5 feet; the number of trees over 1.5 meters/5 feet; and any dominating vegetation with fruit (for example, wolf berry). Also, note other observations you would like to share. Complete the information in the spaces provided on the Vegetation Observation Data Form.	

Point 1

# of Shrubs LESS than 1.5 meters/5 feet:	
# of shrubs GREATER than 1.5 meters/5 feet:	
Dominant Vegetation Type (fruit bearing)	
Other Observations (interesting things you saw and would like to share):	

Point 2

# of Shrubs LESS than 1.5 meters/5 feet:	
# of shrubs GREATER than 1.5 meters/5 feet:	
Dominant Vegetation Type (fruit bearing)	
Other Observations (interesting things you saw and would like to share):	

Point 3

# of Shrubs LESS than 1.5 meters/5 feet:	
# of shrubs GREATER than 1.5 meters/5 feet:	
Dominant Vegetation Type (fruit bearing)	
Other Observations (interesting things you saw and would like to share):
