IBA Polygon Center Point (Latitude, Longitude)	-109.280000, 31.905700
Size	292,206 acres
County	Cochise
Local Communities	Willcox, AZ Douglas, AZ Portal, AZ
Description	This IBA encompasses the large “sky island” mountain range, the Chiricahua Mountains, in southeastern Arizona and is almost 40 miles long by 20 miles wide. The IBA extends from 5000 feet elevation, at the ecotone between grassland and oak, to the top of Chiricahua

	<p>Peak at 9795 feet. Sierra Madrean species reach the northernmost extension of their ranges within this IBA. This IBA is notable for the incredible diversity of bird, mammal, reptile and amphibian species that occur here due to the numerous life zones that overlap in this sky island.</p>
Mission/Goals	<p>Conservation of a major Madrean occidental sky island that represents a rare/unique habitat mosaic in Arizona, supports populations of breeding, year-round and migratory birds, and provides globally significant habitat for Mexican spotted owls.</p>
Current Habitat Conservation, Planning, and Management Activities	<p>The forest lands are managed for multiple uses with an emphasis on wildlife-oriented recreation and hunting. A small lake (Rucker Canyon) is seasonally stocked with rainbow trout by the Arizona Game and Fish Department when water levels are sufficient. A very small part of the range in the northwest corner is protected as the Chiricahua National Monument. The monument protects spectacular erosion features, and provides a scenic drive, many trails, and a visitor center. The small community of Portal, Arizona on the east side of the range, is a primary access point, providing some accommodations and amenities, and is the gateway to numerous campgrounds within the National Forest. Research/Conservation Projects: Southwest Desert Research Station, under the direction of the American Museum of Natural History New York, N.Y., has conducted research on fauna and flora since its founding in 1955.</p>
<p>Land Cover Type¹ (%) and Associated Priority² Birds</p> <p>¹Southwest Regional Gap Analysis modified to align with ABBA/SWAP habitat types</p> <p>²AGFD SGCN and IBA Qualifying Species</p>	<p>32.62 Pinyon Pine-Juniper Woodland (<i>Gould's Turkey, Common Nighthawk, Peregrine Falcon, Woodhouse's Scrub-Jay, Loggerhead Shrike, Scott's Oriole</i>)</p> <p>31.57 Mexican evergreen woodland (<i>Gould's Turkey, Western Yellow-billed Cuckoo, Mexican Spotted Owl, Northern Pygmy Owl, Whiskered Screech Owl, Western Screech Owl, Common Nighthawk, Arizona Woodpecker, Magnificent Hummingbird, Blue-throated Hummingbird, Violet-crowned Hummingbird, Arizona Woodpecker, Peregrine Falcon, Yellow-eyed Junco, Northern Buff-breasted Flycatcher, Mexican Chickadee, Azure Bluebird</i>)</p> <p>10.01 Madrean pine-oak woodland (<i>Gould's Turkey, Mexican Spotted Owl, Northern Pygmy Owl, Whiskered Screech Owl, Western Screech Owl, Northern Goshawk, Swainson's Thrush, Evening Grosbeak, Magnificent Hummingbird, Blue-throated Hummingbird, Broad-billed Hummingbird, Arizona Woodpecker, Peregrine Falcon, Yellow-eyed Junco, Sulphur-bellied Flycatcher, Northern Buff-breasted Flycatcher, Mexican Chickadee, Azure Bluebird, Elegant Trogon, Pacific Wren, Grace's Warbler</i>)</p> <p>8.60 Interior chaparral (<i>Peregrine Falcon, Golden Eagle, Common Nighthawk, Gila Woodpecker, Woodhouse's Scrub-Jay</i>)</p>

<p>Biological Description</p>	<p>Interior Rocky Mountain avifauna meet northern Sierra Madrean avifauna in the Chiricahua Mountains. The Sonoran, Chihuahuan, and Great Basin desert avifauna also collide in this range. Thanks to this diversity, some 375 bird species are known to inhabit the Chiricahua Mountains IBA (Taylor 1997).</p> <p>Sierra Madrean species reach the northernmost extension of their ranges within this IBA. Notable are many bird species, but also mammals like jaguarundis, and trees like the Apache pine. Numerous perennial springs and streams occur within the range, although none flow out of the mountains into the surrounding Chihuahuan desert scrub. The main canyons of the range include West Turkey Creek, Rucker, and Cave Creek.</p>

<p>Focal Bird Species</p> <p>Bold Type are Road to Recovery species</p>	<p><u>AGFD Species of Greatest Conservation Need (2022)</u></p> <p>Tier 1 – American Peregrine Falcon, Mexican Spotted Owl, Western Yellow-billed Cuckoo, Thick-billed Parrot (extirpated)</p> <p>Tier 2 – Abert’s Towhee, American Dipper, American Kestrel, Arizona Botteri’s Sparrow, Arizona Woodpecker, Azure Bluebird, Band-tailed Pigeon, Black-chinned Sparrow, Black-throated Gray Warbler, Blue-throated Mountain Gem, Broad-billed Hummingbird, Broad-tailed Hummingbird, Bullock’s Oriole, Cactus Wren, Canyon Towhee, Cassin’s Finch, Chihuahuan Raven, Common Nighthawk, Costa’s Hummingbird, Dusky-capped Flycatcher, Elegant Trogon, Evening Grosbeak, Ferruginous Hawk (Migration), , Flammulated Owl, Gila Woodpecker, Golden Eagle, Grace’s Warbler, Gray Flycatcher, Grasshopper Sparrow, Hermit Thrush, Hooded Oriole, Loggerhead Shrike, , MacGillivray’s Warbler, Mexican Chickadee, Northern Buff-breasted Flycatcher, Northern Goshawk, Northern Harrier, Northern Pygmy Owl (Mountain), Olive-sided Flycatcher, Pacific Wren, Prairie Falcon, Pyrrhuloxia, Red-faced Warbler, Rivoli’s Hummingbird, Scaled Quail, Scott’s Oriole, Steller’s Jay, Sulphur-bellied Flycatcher, Swainson’s Hawk, Swainson’s Thrush (migration), Thick-billed Kingbird, Townsend’s Solitaire, Vesper Sparrow (migration), Violet-crowned Hummingbird, Western Wood-Pewee, Woodhouse’s Scrub-Jay, Western Burrowing Owl, Western Grasshopper Sparrow, Western Screech Owl, Western Wood-Pewee, Whiskered Screech Owl, Woodhouse’s Scrub Jay, Yellow-eyed Junco</p> <p><u>Federal Threatened or Endangered Species</u> Mexican Spotted Owl, Western Yellow-billed Cuckoo</p> <p><u>USFWS Birds of Conservation Concern</u></p> <p>National – Flammulated Owl, Elf Owl, Costa’s Hummingbird, Calliope Hummingbird, Elegant Trogon, Arizona Woodpecker, Olive-Sided Flycatcher, Virginia’s Warbler, Grace’s Warbler Lucy’s Warbler, Red-faced Warbler, Brewer’s Sparrow, Black-chinned Sparrow</p> <p>USFWS Region – Peregrine Falcon, Black-chinned Sparrow, Golden Eagle, Flammulated Owl, Elf Owl, Northern Buff-breasted Flycatcher, Grace’s Warbler, Olive Warbler, Lucy’s Warbler, Red-faced Warbler</p>

<p>Ownership</p>	<p>The US Forest Service (Coronado National Forest, Douglas Ranger District), the US Park Service (Chiricahua National Monument), American Museum of Natural History (Southwest Desert Research Station), and private.</p>

Conservation Land Status**	National Forest and National Park
Human Population Density	Rural
Legislative District(s)	Arizona Congressional District 6 and State Legislative District 19
NRCS Major Land Resource Area	41: Southeastern Arizona Basin and Range
Visitation, main access, and permits needed	<p>The small community of Portal, Arizona on the east side of the range, is a primary access point, providing some accommodations and amenities, and is the gateway to numerous campgrounds within the National Forest.</p> <p>From Sierra Vista go east on Hwy 90 then south on Hwy 80 to Bisbee; continue east on Hwy 80 to Douglas; continue northeast on Hwy 80 to Rodeo, NM; and finally go west on Portal Road about 2 miles north of Rodeo. This route is entirely blacktop and is an all-weather route.</p>

*References available written narratives (located on the [SJV website](#)) for general habitat types occurring within the IBA.

**Identifies whether the IBA or portions of the IBA have a special land management designation such as: wilderness, primitive area, wildlife area, refuge, park, monument, designated conservation area, conservation easement, or other similar designation

IBA Activities:

Issue or Activity	Priority	Description	Actions – Responsible Party
Bird Monitoring	H	Portal CBC	Annual-Coordinated by Arizona Field Ornithologists
Bird Monitoring	H	Portal Breeding Bird Survey	Continue-USGS
Bird Monitoring	H	Hummingbird Monitoring	Hummingbird Monitoring Network
Bird Monitoring	L	AZ IBA Surveys	Tucson Audubon led - Encourage eBird entries
Bird Monitoring	M	USFS spotted owl surveys - conducted periodically	Use data to update global designation criteria
Bird Monitoring	H	IBA Trogon Breeding Surveys	Annual – Tucson Audubon lead
Bird Monitoring	M	Yellow-billed cuckoo surveys USFWS Breeding Survey Protocol	As funding is available
IBA Signage	H	IBA Signs installed at SW Research Station and multiple bird feeder stations on private land.	Partial- Tucson Audubon lead
IBA Dedication	H	A formal recognition event	October 2023- Tucson Audubon lead

Partners:

Name	Role(s)	Contact Information	Actions
Coronado National Forest Douglas Ranger District	Land Managers	Contact Information	Multiple-use management
National Park Service	Land Managers	Contact Information	Protection of landscape within the Chiricahua National Park including erosion features, scenic drives, many trails, and a visitor center.
Southwest Desert Research Station (Smithsonian Institute of Natural History)	Land Owner and research facility	Contact Information	More about the Southwest Desert Research Station’s research activities can be found on their website .
Private Ranch(es)	One Land Owner-included within the IBA	Contact IBA Program for more information if available	Support conservation easements.

Conservation Targets:

These are species, communities, or ecological systems that represent and encompass the full array of biodiversity found in this IBA.

Conservation Target	Current Condition
Grassland Birds	Good
Madrean Oak Woodland and Sycamore/ Oak Birds	Very Good
Mixed Conifer and Spruce-Fir Birds	Good

Conservation Challenges:

Conservation challenges are primarily human activities that immediately affect what we are trying to conserve. Through a Miradi process, it was found that drought, wildfire, and woody plant invasion pose the greatest threats to birds within this IBA.

Challenges	Madrean Oak Woodland and Sycamore/Oak Birds	Mixed Conifer, Pine/Oak, and Spruce-Fir Birds	Grassland Birds	Summary Rating
Wild Fire	High	High	Medium	High
Grazing	Low	Low	Medium	Low

Challenges	Madrean Oak Woodland and Sycamore/Oak Birds	Mixed Conifer, Pine/Oak, and Spruce-Fir Birds	Grassland Birds	Summary Rating
Drought	High	Very High	Medium	High
Birder Disturbance to Birds	Low	Low	Low	Low
Summary Ratings:	Medium	High	Medium	High
